

23 March 1983

MEMORANDUM FOR THE RECORD

SUBJECT: Request for Assistance in Accounting Review and
Automation Recommendation for GEHA

STAT On 23 March 1983, the undersigned spoke with [redacted]
of the Office of Finance regarding our desire to conduct an expeditious
review of our GEHA accounting. This review would have two purposes --
STAT to develop better financial management reporting tools and to ascertain
accounting automation requirements. [redacted] was very sympathetic to
our needs but felt OF would be unable to provide assistance since the
OF Systems Development area was severely understaffed and had been for
some time.

STAT [redacted]
